

THE LONDON WOMEN'S CLINIC PRICE LISTEffective from 1st September 2015*Our price list is reviewed quarterly [Please see the review date in the footer of the page].***Methods of payment accepted: Visa/MasterCard/Switch/Delta/Cash**

- At your initial consultation you will be given a quote for your treatment which will be valid for three months. After this time, we suggest you contact the clinic to confirm your treatment costs.
- You will be expected to pay the full cost of your treatment prior to starting treatment at the clinic.
- Please note upon booking we require all of your contact and credit/debit card details to secure the booking of your appointment. We do not take payment from you until you attend the clinic for your consultation. However, should you need to cancel or reschedule, you will need to provide at least 24 hours notice or you will be charged for the consultation. We are unable to cancel or reschedule weekend appointments without incurring the full charge.

Courier fee	£3-500
Additional – (where applicable):	
HFEA licence fee (refundable if no embryo transfer occurs)	£75
IVF medication package	(section 3)
Sedation for egg collection	£300
ICSI	£1,250
Blastocyst culture/ Assisted hatching	£500
Screening tests (including additional genetic tests if required) & any hormonal assessments during treatment	(section 17&18)
Embryo freezing (see section 15 for storage costs)	£325
If embryo biopsy is not performed £2950 is refundable (£150 to cover administration costs). If genetic screening does not take place following embryo biopsy £2600 is refundable (£500 to cover embryo biopsy and administration costs). Please note that any embryos used in a later frozen cycle are chargeable as per the frozen embryo transfer prices; that in-date screening tests are required when the embryos are replaced in a frozen cycle and these costs are additional.	
Preimplantation Genetic Diagnosis for Translocations/Chromosome Imbalances	
Standard IVF (section 2)	£3,450
Embryo biopsy & testing by High Resolution Array CGH (24 chromosomes) analysis of up to 8 samples	£3,250
ICSI	£1,250
Additional samples	£240
Courier fee	£3-500
Additional – (where applicable):	
HFEA licence fee (refundable if no embryo transfer occurs)	£75
IVF medication package	(section 3)
Sedation for egg collection	£300
Blastocyst culture/ Assisted hatching	£500
Screening tests (including additional genetic tests if required) and any hormonal assessments during treatment	(section 17&18)
Embryo freezing (see section 15 for storage costs)	£325
If embryo biopsy is not performed £3100 is refundable (£150 to cover administration costs). If genetic screening does not take place following embryo biopsy £2750 is refundable (£500 to cover embryo biopsy and administration costs). Please note that any embryos used in a later frozen cycle are chargeable as per the frozen embryo transfer prices; that in-date screening tests are required when the embryos are replaced in a frozen cycle and these costs are additional.

10. Intrauterine Insemination

[Payment must be received in full on or before the first day of any treatment cycle]

Intrauterine Insemination (IUI natural cycle)	£795
Sperm preparation Insemination Pregnancy scan up to 8 weeks	
Additional – (where applicable):	
HFEA fee for using donor sperm (refundable if no insemination occurs)	£37.50
Second insemination on the same cycle (not including donor sperm if required)	£795
Screening tests prior to treatment & any hormonal assessments during treatment	(section 17&18)
LH kit test (digital)	£25
Donor sperm	(section 11)
If the cycle is abandoned after sperm preparation has taken place no refund is due. If the cycle is abandoned prior to sperm preparation the cost of the cycle will be refunded minus £150 for the sperm preparation. If more than one sperm sample is prepped, each sperm sample will be charged for at a cost of £150 each.	
Intrauterine Insemination (IUI stimulated)	£1,295
All ultrasound assessments during treatment cycle Sperm preparation Insemination Pregnancy scan up to 8 weeks	
Additional – (where applicable):	
HFEA fee for using donor sperm (refundable if no insemination occurs)	£37.50
Second insemination on the same cycle (not including donor sperm if required)	£795
Medication	(section 3)
Screening tests prior to treatment & any hormonal assessments during treatment	(section 17&18)
Donor sperm	(section 11)
If the cycle is abandoned after sperm preparation has taken place no refund is due. If the cycle is abandoned prior to sperm preparation the cost of the cycle will be refunded minus £150 for the sperm preparation and £500 to cover monitoring scans. If more than one sperm sample is prepped, each sperm sample will be charged for at a cost of £150 each.

11. Donor Sperm

[Payment must be received in full on or before the first day of any treatment cycle]

<p>Donor sperm from the London Sperm Bank catalogue (inc. VAT)</p> <p>Donor sperm for one treatment cycle as per the LSB catalogue terms and conditions of sale Visit www.londonspermbankdonors.com</p>	£950
<p>Three cycle donor sperm package from the London Sperm Bank catalogue (inc. VAT)</p> <p>Donor sperm for three treatment cycle as per the LSB catalogue terms and conditions of sale Visit www.londonspermbankdonors.com</p> <p>Conditions apply. Please note that we cannot guarantee that you can use the same sperm donor for each cycle. Donor sperm must be used at the London Women's Clinic unless under exceptional circumstances. All treatments must be commenced within one year of commencement of the first treatment. A successful pregnancy (beyond 20 weeks) during the first/second treatment cycle does not lead to a part refund in fees. Should the pregnancy fail within the first 20 weeks of pregnancy and the 12 month period has not elapsed the patient is eligible to continue using the remainder of the package. If a pregnancy is achieved on the first or second cycle the sperm for any remaining cycles may be converted into sibling sperm from the same donor. A storage fee will be applicable (see section 15).</p>	£1,900
<p>Importing donor sperm from abroad</p> <p>Administration fee</p> <p>Please contact clinic prior to paying for imported sperm to ensure sample suitability and HFEA compliance. The courier fee is dependent on the destination and will be quoted individually.</p> <p>Storage of sperm</p>	£200 (section 15)
<p>Reservation of sibling sperm (inc. VAT)</p> <p>Donor sperm for one cycle as per the LSB catalogue terms and conditions of sale</p> <p>Administration fee</p> <p>Storage of sperm</p> <p>Subsequent storage</p> <p>Please contact clinic immediately after viability scan to confirm sample availability</p>	£950 £150 (section 15) (section 15)
<p>Administration fee to transport gametes/embryos to/from non-LWC clinics</p> <p>Within the UK mainland</p> <p>Outside the UK mainland</p> <p>This is non-refundable if the transfer does not go ahead. The courier fee is dependent on the destination and will be quoted individually.</p>	£150 £1,800
<p>Reservation of pregnancy slot (for embryo freezing)</p>	£1,500

14. Additional Charges

[Payment must be received in full on or before the first day of any treatment cycle]

DNA fragmentation test on sperm(TDL Lab only) Courier Semen Analysis and freeze DNA fragmentation Copy of report Follow up with a genetic counsellor by phone	£1000
PESA (Percutaneous Sperm Aspiration) Sperm collection Sedation For storage fees please see section 15 Please note that payment costs need to be paid in full whether sperm is retrieved or not	£1,500
TESE (Testicular Sperm Aspiration) Sperm collection Sedation For storage fees please see section 15 Please note that payment costs need to be paid in full whether sperm is retrieved or not	£1,500
Cyst aspiration/follicle reduction Theatre procedure Recovery care Please note that if sedation is required this will be chargeable (£300)	£200
Mock Cycle Scans Progynova OR Elleste OR Estraderm, and Cyclogest OR Lutigest OR Gestone OR Utrogestan medication Trial embryo transfer without sedation (if sedation is required, there will be an additional charge of £300)	£1,000
Intracytoplasmic Sperm Injection (ICSI) [Relevant IVF package will be payable in addition]	£1,250
Blastocyst culture / Assisted hatching	£500
Intralipid infusion (medication and administration) - per infusion	£500
Natural killer cell blood tests (Monday – Thursday before 1pm) - per infusion	£720
Ultrasound monitoring cycle	£500
Intravenous (IV) sedation fee	£300
Copy of notes Copying and checking of notes Postage and packaging or scanning and sending via email/fax	£50
Prescription request for external patients Consultation and prescription Subsequent prescriptions will be chargeable at £65 each	£130
Primovision time lapse technology	£750
Egg donation waiting list fee (via London Egg Bank catalogue)	£500
Genetic Mutation Testing	£350
Endometrial scratch	£150
Sperm aneuploidy testing (5 chromosomes)	£750

17. Individual screening tests

*to be done between days 1 – 4 of the female menstrual cycle

FSH*	£50
LH*	£50
Oestradiol*	£50
Anti Mullerian Hormone (AMH)	£95
βHCG	£40
Testosterone	£50
SHBG	£40
DHEAS04	£50
Prolactin	£50
Progesterone	£27
T4	£50
TSH	£50
HIV 1 & 2	£60
Hepatitis B Surface Antigen	£60
Hepatitis B core	£50
Hepatitis C	£75
Hepatitis B viral load	£250
Hepatitis C viral load	£270
HTLV 1 and 2	£110
Chlamydia	£95
TPHA (Syphilis)	£50
Rubella	£50
CMV IgM/IgG	£115
Cervical Smear	£60
Blood group and Rhesus factor	£40
Cystic Fibrosis	£110
Sickle Cell	£50
Tay Sachs	£50
Thalassaemia	£55
17 Hydroxy Progesterone	£115
Homocysteine	£170
Trichomonas	£29
Gonorrhoea	£49
Chromosome Analysis (Karyotype)	£280
Urine cotinine	£75
CA125	£140

18. Investigation Packages

[Payment must be received in full on or before the day the test is undertaken]

Please note: HIV 1 & 2, Hepatitis B surface antigen, Hepatitis B core antibody, Hepatitis C and Chlamydia (female partner only) must be valid within 3 months of starting the 1st cycle of treatment

LWC 1 Pre-treatment blood test package (Female) HIV 1 & 2, Hepatitis B surface antigen, Hepatitis B core antibody, Hepatitis C, Chlamydia, Rubella If you test positive for Hepatitis B Core you will need to carry out a Hepatitis B viral load blood test	£295
LWC 2 Pre-treatment blood test package (Male) HIV 1 & 2, Hepatitis B surface antigen, Hepatitis B core antibody, Hepatitis C If you test positive for Hepatitis B Core you will need to carry out a Hepatitis B viral load blood test	£200
LWC 3 [Sexually transmitted infection screening] annually repeated HIV 1 & 2, Hepatitis B core antibody, Hepatitis B surface antigen, Hepatitis C If you test positive for Hepatitis B Core you will need to carry out a Hepatitis B viral load blood test	£200
LWC 4 [Fertility screening] FSH, LH, Oestradiol	£120
LWC 5 [Tumour marker screening – type 1] HE4 (Ca125, HE4, ROMA), AFP, βHCG	£235
LWC 6 [Tumour marker screening – type 2] Ca125, Ca19-9, AFP, βHCG	£200
LWC 7 LH, Oestradiol, Progesterone	£90
LWC 8 LH, Oestradiol	£80
LWC 9 FSH, LH, Oestradiol, AMH	£200
LWC 10 OHSS2 [OHSS diagnostic test] Liver function tests, Urea and Electrolytes, Full blood count, Clotting screen	£125
LWC 11 COL2 Liver function tests, Full blood count	£65
LWC 12 REC MISCARRIAGE [Recurrent miscarriage screen] Thyroid peroxidase antibodies, Coeliac antibodies, Vitamin D, Fasting Homocysteine, Lupus, Anti-cardiolipin antibodies	£360
LWC 13 PCOS [Polycystic ovarian syndrome blood screening] Prolactin, Testosterone, SHBG, T4, TSH, AMH, Androstenedione, DHEAS, 17 Hydroxyprogesterone day 2-5 of cycle	£200
LWC 14 Natural killer cells (Monday-Thursday before 1pm) 50:1, 25:1, 12.5:1, IgG conc 12.5 50:1, IgG conc 12.5 25:1, CD3%, CD19%, CD56%, CD19+, CD5+ Cells	£720
LWC 15 Male Genetic Reproduction Profile Chromosome analysis, Y Chromosome microdeletion, cystic fibrosis screen	£600
Phlebotomy charge for outside patients (per visit)	£35
LH kit test (digital)	£25
Haemoglobin electrophoresis Sickle Cell anaemia, Thalassemia	£70

20. Individual medication charges

There are no refunds given for unused drugs that have been taken off of the premises. Drugs cannot be supplied, nor taken from the premises, without prior payment.

Gonal F	75IU	£30
	300IU	£120
	450IU	£180
	900IU	£360
Buserelin	5.5ml (2)	£100
Synarel 30	200mcg (1)	£90
Synarel 60	200mcg (1)	£150
Ovitrelle	250mcg (1)	£30
Cyclogest pessaries (for internal use)	400mg (3)	£120
Utrogestan (vaginal pessaries)	200mg (21)	£35
Orgalutran	0.25mg	£42
	0.25mg (7)	£300
Gestone injections	100mg (10)	£300
Lubion injection	25mg (7)	£110
Gonapeptyl depot	3.75mg	£120
Menopur	75mg (10)	£300
Cetrotide	0.25mg	£42
	0.25mg (7)	£300
Menopur	1 x 75IU	£21
	1 x 600IU multidose	£168
	1 x 1200IU multidose	£336
Luveris	75IU (20)	£700
Elleste solo tablets	2mg (84)	£16
Clexane	20mg (10)	£130
	40mg (10)	£150
Progynova tablets	2mg (1 strip of 28)	£8
Doxycycline	100mg (8)	£5
Prednisolone	5mg (56)	£5
Clomid	50mg	£2
Estraderm patches	100mg each	£4 each
	Box of 8 x 100mg	£28 per box
Lutigest	21 pessaries	£40

*All services and products provided at the London Women's Clinic, and all applicable HFEA fees, must be paid in full, in advance. Please see separate Terms and Conditions. **Private Health Insurance and Third Party Payment:** As noted above, all fees payable to the London Women's Clinic must be paid in advance including if a third party or insurance company are liable to reimburse or otherwise pay.*
